In re Application of	:	
Yamawaki et al.	:	
Patent No. 7,488,841	:	OFFICE OF PETITIONS
Issue Date: 02/10/2009	:	ON APPLICATION FOR
Application No. 10/525,729	:	PATENT TERM ADJUSTMENT
Filed: 02/25/2005	:	
Attorney Docket Number:	:	
10993.0249	:	

This is in response to the "DETERMINATION OF PATENT TERM ADJUSTMENT - POST GRANT" filed on April 8, 2009, which is treated as a petition under 37 CFR 1.705(d). Patentees request that the patent term adjustment be increased from 565 days to 916 days. For the reasons stated below, the petition is treated as a petition requesting that the patent term adjustment indicated on the above-identified patent be corrected to indicate that the term of the above-identified patent is extended or adjusted by nine hundred ten (910) days.

The petition to correct the patent term adjustment indicated on the above-identified patent to indicate that the term of the above-identified patent is extended or adjusted by nine hundred ten (910) days is **GRANTED to the extent indicated herein**

On February 10, 2009, the subject application issued as U.S. Patent No. 7,488,841, with a patent term adjustment of 565 days. On April 8, 2009, the subject request for reconsideration was filed.

Patentees assert entitlement to an additional period of adjustment for Office delay of 351 days pursuant to 37 CFR 1.705(b).

The "B" delay period is 348 days, not 351 days as calculated by patentee. 37 CFR 1.702(b) states that the period of adjustment

under 35 U.S.C. 154(b) is the period beginning three years after the date on which an application was filed under 35 U.S.C. 111(a), or the national stage commenced under 35 U.S.C. 371(b) or (f) in an international application. This application was filed pursuant to 35 U.S.C. 371(b), not under 35 U.S.C. 111(a).

The calculation of delay pursuant to 37 CFR 1.702(b) is based on a national stage commencement date of February 28, 2005. As the expiration of the 30-month period pursuant to 35 U.S.C. 371(b) fell on a Sunday, the period expired on the subsequent business day. See PCT Rule 80.5. Accordingly, the commencement date is Monday, February 28, 2005. Thus, the period of delay is 340 days, counting the number of days beginning on February 29, 2008, the day after the date three years after the national stage commenced, and ending on February 10, 2009, the date the patent issued.

Further, 37 CFR 1.703(a)(1) states that the period of adjustment for Office delay is the number of days, if any, in the period beginning on the day after the date that is fourteen months after the date on which the application was filed under 35 U.S.C. 111(a) or fulfilled the requirements of 35 U.S.C. 371 and ending on the date of mailing of either an action under 35 U.S.C. 132, or a notice of allowance under 35 U.S.C. 151, whichever occurs first. The fourteen month period under § 1.703(a)(1) is calculated from the date of the fulfillment of the requirements of 35 U.S.C. 371.

The priority date in this application is August 27, 2002. Applicants did not file an express request under 35 U.S.C. 371(f). Accordingly, the date which is 30 months from the priority date is February 27, 2005. As February 27, 2005, fell on a Sunday, the commencement date is shifted to Monday, February 28, 2005. See PCT Rule 80.5. Additionally, as applicants completed all 35 U.S.C. 371 requirements on filing the national stage prior to commencement, the completion date is also shifted to February 28, 2005.

Accordingly, the period of adjustment under 37 CFR 1.702(a)(1) is the period beginning on April 29, 2006, the day after the date fourteen months after the date of completion of all requirements under 35 U.S.C. 371. An office action was mailed on November 16, 2007, fourteen months and 567 days after the date after the date after the application completed the

requirements of 35 U.S.C. 371. The period of adjustment under 37 CFR 1.702(a)(1) is therefore 567 days rather than 570 days. The 570 day period of adjustment for Office delay will be removed and a 567 day period will be entered.

The patent term adjustment at the time of issuance of the patent is 910 days (567 days of Office delay + 348 days of three years delay - 5 days of applicant delay) days.

The Office will *sua sponte* issue a certificate of correction. Pursuant to 37 CFR 1.322, the Office will not issue a certificate of correction without first providing assignee or patentee an opportunity to be heard. Accordingly, patentees are given **one (1) month or thirty (30) days**, whichever is longer, from the mail date of this decision to respond. No extensions of time will be granted under § 1.136. See 37 CFR 1.323(a)(4).

Nothing in this decision shall be construed as a waiver of the requirement of 35 U.S.C. 154(b)(4) that any civil action by an applicant dissatisfied with a determination made by the Director under 35 U.S.C. 154(b)(3) be filed in the United States District Court for the District of Columbia within 180 days after the grant of the patent.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fees are required.

The application is being forwarded to the Certificates of Correction Branch for issuance of a certificate of correction. The Office will issue a certificate of correction indicating that the term of the above-identified patent is extended or adjusted by nine hundred ten **(910)** days.

Telephone inquiries regarding this matter should be directed to the undersigned at (571) 272-3231.
